

MANGALI RAKESH

DATA ANALYST

mangalirakesh13@gmail.com | +91-6301730880 | linkedin.com/in/mangali-rakesh-35831525a | github.com/rrakhi644

PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in Python, SQL, Power BI, and Excel. Skilled in data cleaning, validation, transformation, dashboard development, and reporting automation. Experienced in building KPI dashboards, performing exploratory data analysis, and delivering actionable insights that improve operational efficiency and decision-making.

TECHNICAL SKILLS

Programming	Python, SQL, Java	Visualization	Power BI, Excel Dashboards, Matplotlib, Tableau
Database	SQL	Tools	Power Query, Git, GitHub, VS Code
Data Analysis	Pandas, NumPy, Advanced Excel, Data Cleaning, Data Validation, EDA, Statistics	Core Skills	Problem Solving, Communication, Teamwork, Adaptability

PROFESSIONAL EXPERIENCE

Data Analyst <i>Anudip Foundation</i>	Present
- Cleaned, transformed, and validated datasets using Python, SQL, and Excel, improving data quality by 25%. - Developed Power BI dashboards and automated reports, reducing reporting time by 30%. - Created performance tracking reports for training, attendance, placements, and center operations. - Analyzed business data to identify trends and support strategic decision-making.	
Data Analyst Intern <i>Rooman Technologies</i>	2025
- Performed exploratory data analysis on large datasets using Python and SQL. - Built dashboards using Power BI and Excel for business insights and performance tracking. - Generated reports and visualizations to improve business performance; increased efficiency by 20%.	

KEY PROJECTS

DeepTech Analytics & Reporting Dashboard <i>Technologies: Python, Excel, Power BI, Power Query</i>	Present
- Developed automated reporting for student enrollment, attendance, placements, and center performance. - Extracted, cleaned, and transformed data using Python, Excel, and Power Query; designed interactive Power BI dashboards. - Automated reporting workflows, reducing manual effort by 35%; generated actionable insights for management.	
DMart Sales Analytics Dashboard <i>Technologies: SQL, Excel, Power BI</i>	Jan 2025
- Built a dashboard to monitor revenue, profit, orders, and customer purchasing trends. - Extracted and transformed data using SQL; built interactive Power BI reports with KPIs and dynamic filters. - Identified top-performing products and seasonal sales patterns; improved reporting efficiency by 25%.	
Restaurant Sales & Performance Dashboard <i>Technologies: SQL, Excel, Power BI</i>	Nov 2024
- Developed an interactive dashboard to analyze restaurant sales and customer ordering trends. - Built Power BI visualizations to track revenue, customer preferences, and peak business hours. - Identified top-selling menu items and revenue categories; improved efficiency by 20%.	
HR Analytics Dashboard <i>Technologies: Python, Excel, Power BI</i>	Aug 2025
- Performed data cleaning, preprocessing, and EDA using Python to analyze employee attrition and workforce performance. - Identified key attrition factors; built KPI-driven visualizations for HR decision-making.	

EDUCATION

B.Tech – Electronics & Communication Engg. G. Pullaiah College of Engineering and Technology	2021–2025 CGPA: 8.85
Intermediate (MPC) AP Model Junior College	2019–2021 CGPA: 9.44
SSC AP Model School	2018–2019 CGPA: 9.30

CERTIFICATIONS

- Data Analytics Certification – Rooman Technologies (2025)
- NPTEL Programming in Java – IIT (2024)
- MATLAB Onramp – MathWorks (2023)
- Data Structures & Algorithms – Smart Interviews
- Advanced Excel for Data Analysis
- Power BI for Data Analytics
